

Department of
Primary Industries

GATETM
GLOBAL AG-TECH ECOSYSTEM

FAST TRACKING DEVELOPMENT OF AG-TECH

APPLY NOW

Round 2 applications are now open for entrepreneurs from Australia and across the world to participate in a global research and ag-tech centre based in the NSW Central West.

The Global Ag-Tech Ecosystem (GATE) Innovation Centre is a new initiative of the NSW Department of Primary Industries in Orange.

The purpose of the GATE is to fast-track research and development, to get new ideas, technologies and services into the hands of agricultural producers and industry.

The GATE offers incubation services for individuals or start-ups with research and development output which has commercial potential. Accelerator services to hasten prototyping, scaling and growth are also offered at the GATE via DPI's partner, Sparklabs Cultiv8, with connections to global mentors, expertise and venture capital.

Relocation to Orange is not required by the program.

APPLICATIONS CLOSE 31 MAY 2018

with successful applicants entering the GATE from June 2018.

For more information and to apply go to:
www.thegate.org.au or contact thegate@dpi.nsw.gov.au
