Confinement feeding / drought lot workshops

Central Tablelands and Central West Local Land Services

Presenting a series of workshops focussing on confinement feeding

Topics included in the workshops:

- What is a confinement feeding area and why would I need one
- Selecting the right site
- Facilities – what infrastructure do you need and how to set them up
- Management of livestock for best results
- Nutrition, practical applications – dos and don'ts
- Minimising health problems and performance

There will be a field trip in the afternoon to look at a confinement feeding area. Each session will run from 9.30am to 3.30pm and include morning tea and lunch.

The sessions are free with RSVPs required for catering.
